**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-14 are allowed.

Claims 1-14 are allowable over the prior art of record for at least the reason that even though the prior art discloses optical structures comprising a patterned layer of reflective material partially covering a surface relief pattern formed on a substrate, with a colored layer covering the patterned layer and the surface relief pattern, the prior art fails to teach or reasonably suggest, an optical structure comprising an optically active color-shifting coating, wherein the color shifting coating has a visibly changing color with a change in viewing angle or a change of angle of incident light, as set forth by the claimed combination.
